

UKGBC L&D Programme

Upcoming Courses May–July 2018

UKGBC L&D programme for the coming 3 months covers a range of really interesting online and face to face learning events; getting started workshops on key topics, and technical workshops for more advanced learning.

RAISING AWARENESS

WEBINARS

2nd May **Leading the Way – Sustainability insights from leading built environment businesses**

This webinar will publicly launch the UKGBC report which shares extensive research and analysis from the Sustainability 360 Review that we carried out for all Gold Leaf members in August 2017.

7th June **WELL Standard Webinar**

Join us for this introductory webinar on the WELL building standard, the quickly growing leading standard for health and wellbeing in buildings. We are pleased to be hosting an International WELL Building Institute faculty member who will be giving an overview of the standard and the next steps to learn more or applying the assessment scheme to new projects.

COURSEMAIL

July 2018 **NEW: Coursemail Series 2: What is Sustainable Building?**

The aim of this series is to provide a summary of what sustainable building looks like, covering the key components and features of Sustainable Building.

This series is delivered in four easy-to-read emails. The four key topics covered in this series are:

- 1 What is a sustainable building?
- 2 How sustainable building is designed and delivered
- 3 Overcoming barriers to sustainable design
- 4 Key trends and innovation in sustainable design.

To take a look at our bitesized ON-LINE learning – to share with colleagues to raise awareness on sustainability visit www.ukgbc.org/courses-and-events/

SUSTAINABILITY ESSENTIALS eLEARNING MODULE

One hour elearning module to increase awareness around sustainability in the built environment. Access the eLearning module at www.ukgbc.org/courses-and-events/ or contact us if you would like to adapt the eLearning to your organisation or upload to your own LMS.

BUILDING KNOWLEDGE

GETTING STARTED WORKSHOPS

27h June **Social Value**

Understand the business case for social value, stakeholder mapping and measurement of social value. Will also cover the UKGBC social value report.

INSIGHTS AND INNOVATIONS WEBINAR SERIES

June 2018 **NEW: Series 2 – Urban ecosystems**

Join us for the second series of UKGBC Insights and Innovations webinars where we will be focusing on the latest trends and innovations in the field of biodiversity and ecosystems that support vegetation, wildlife species and health and wellbeing in the built environment. Hear about some exciting research and projects that are changing the way we think about biodiversity gain and how these could help us drive an increase in biodiversity, but also community engagement and people's health in the urban and indoor environment. Gain access to expert speakers to ask them your questions and discuss and debate the issues with UKGBC members live on the webinar. Details on the four webinars:

- 1 Best practice in Urban Agriculture, US and UK case studies – 5th June
- 2 Microbial balance for wellbeing in indoor environments – 14th June
- 3 The Great Green Wall of Africa – 19th June
- 4 Biophilia – 27th June

SHARING EXPERTISE

MASTERCLASSES / TECHNICAL WORKSHOPS

4th July **WELL Standard**

This is an advanced workshop aimed at WELL team/AP trained practitioners or professionals studying towards achieving AP certification. The workshop will cover an in-depth examination of the seven WELL Concepts and practical examples/exercises on the application of the scheme to real projects.

11th July **Sustainable Building – World examples**

Come to a workshop to hear about good practices globally – in conjunction with World GBC we will hear about examples of sustainable building world-wide, and discuss key learnings for the UK construction industry.
